

This country is in Africa and the poorest people are really poor. They only get \$238 a year to live off, this has to pay for food, clothes, rent, education and doctors.

This country is just across the Atlantic Ocean from us, we found out the other day how much money they spent on food, well the richest people get to spend over \$51,000 in a year, whereas the poorest only get \$5,800 a year.

This is a country in Asia, the richest and the poorest people here have the closest amount of money compared with the other countries, here the poorest people have to try to survive a year with only \$527, which is better than some other countries.

This is the country that we all live in, the richest people get over \$38,000 a year to live off, but the poorest have a tiny amount of that at \$3,963 for the year!
